Affluenza How Overconsumption Is Killing

" Affluenza is a sober indictment of the excesses and sheer waste in our increasingly consumer-oriented society. We would all be well served to read the book and pass it on to relatives, friends, and neighbors in the hopes of creating a great public conversation around how to eradicate the affluenza pandemic."

Affluenza Introduction-Chapter 1 Summary & Analysis ...

Overview. Affluenza seeks to diagnose and treat the disease of overconsumption that its three authors, John de Graaf, David Wann and Thomas H. Naylor, believe to be a serious threat to both the human species and the rest of the planet. Accordingly, the book is divided into three main parts: a discussion of the symptoms of affluenza, an analysis of its causes, and suggestions for some possible ...

Affluenza How Overconsumption Is Killing Us and How To ...

Overconsumption is a situation where resource use has outpaced the sustainable capacity of the ecosystem. A prolonged pattern of overconsumption leads to environmental degradation and the eventual loss of resource bases.. Generally, the discussion of overconsumption parallels that of human overpopulation; that is the more people, the more consumption of raw materials takes place to sustain ...
