Bike Manual

A manual, like a wheelie, is a technique for keeping the front wheel off the ground while you roll on the rear wheel. It differs from a wheelie in that you don't pedal. Manuals aren't just a fun way to show off—they can also increase your speed and efficiency on the trail. They're smoother and quicker than a standard wheel lift for getting over bumps like water bars or little roots, and they help you carry speed through pumpy sections of trail.
