Designing and Conducting Research in Education

The concept of conducting survey research is deceptively simple. However, it is easy to create a flawed survey. Without careful attention to overall survey design and the creation of the survey items, the study will likely produce invalid results.

Designing Surveys for Evaluations and Research

Conducting research with integrity requires more than the scientific or technical expertise required to carry out a research study. Acting with integrity in research requires the ability to identify and respond appropriately to the ethical questions that inevitably arise throughout the research process. In general, when we think about the responsible conduct of research, we [...]
