### **Fallen star | RuneScape Wiki | Fandom**

"Shooting stars" and "falling stars" are both names that describe meteors -- streaks of light across the night sky caused by small bits of interplanetary rock and debris called meteoroids vaporizing high in Earth's upper atmosphere.

### **2020 Meteor Showers | StarDate Online**

For the blue stars that give the player mana when collected, see Star. Fallen Stars are items that randomly fall from the sky at night and disappear at dawn (4:30 AM). They can be used to craft Mana Crystals, which permanently increase a player's mana capacity by 20 points each.

### **Fallen Star - The Official Terraria Wiki**

Shooting stars fall from the sky in RuneScape approximately every 2 hours in one location on each world. The location may be different in other worlds. When players mine through all layers of the star, they will find a Star sprite. The location of the crash sites are random, although the stars always crash near a mine or bank.
