From Wikipedia, the free encyclopedia The 2nd Light Division (sometimes described as a Light Mechanized division) was a motorized division created in 1938 during the German rearmament. It participated in the invasion of Poland. After the end of the Polish campaign the division was converted into a panzer division, forming the 7th Panzer Division.

**2nd Light Division (Wehrmacht) - Wikipedia**  
Both the Panzer I and II were considered as stopgaps before the arrival of more advanced models, namely the Panzer III and IV. Despite of this, the Panzer II remained in service throughout the war, being the main light tank in German service and being used as a scout, although many wheeled vehicles preformed this specialized task far better.
