The Big Bang. Since the early part of the 1900s, one explanation of the origin and fate of the universe, the Big Bang theory, has dominated the discussion. Proponents of the Big Bang maintain that, between 13 billion and 15 billion years ago, all the matter and energy in the known cosmos was crammed into a tiny, compact point.

Bang on Books offer a small range of personalised children's books. I have tried all three that are on offer so far, as gifts to my own children and my niece and nephew. They are lovingly illustrated and they really draw the children into the story by an ingenious twist of storytelling and the use of an actual picture of the child.
