The Architecture of Law explores the metaphor of law as an architectural building project, with eternal law as the foundation, natural law as the frame, divine law as the guidance provided by the architect, and human law as the provider of the defining details and ornamentation. Classical jurisprudence is presented as a synthesis of the work of the greatest minds of antiquity and the medieval period, including Cicero, Aristototele, Gratian, Augustine, and Aquinas; the significant texts of each ...

One conservative critic of Defense Secretary Donald Rumsfeld says he will leave at least one important positive legacy: the transformation of the department into a net-centric environment. Analyst:

### **Rumsfeld's Legacy: Netcentricity**

Public building architecture also helps to define society. Throughout history, different types of architecture have come to symbolize different ideas. For example, in America, many public buildings, particularly government buildings, are built in the neoclassical style, which in turn imitates the buildings found in ancient Greece.
