### **Amazon.com: The Distracted Mind: Ancient Brains in a High ...**

The Distracted Mind by Adam Gazzaley and Larry D. Rosen is a highly engaging read of how we cognitively pursue our goals and how our brains have to frequently overcome internal and external interference, including that from modern technologies, to do this successfully. The book includes excellent, clear examples of what these problems of goal interference are and how they might affect us in our daily lives.

### **The Distracted Mind: Ancient Brains in a High-Tech World ...**

The Distracted Mind: Ancient Brains in a High-Tech World by Adam Gazzaley and Larry D. Rosen. People are inherently information seekers. In today's high-tech world this tendency can draw us to distraction and keep us from accomplishing our goals. Adam Gazzaley, a neuroscientist at the University of California, San Francisco, and Larry Rosen, a psychologist at California State University, Dominguez Hills put forward these ideas in their 2016 book entitled The Distracted Mind: Ancient Brains ...

### **The Distracted Mind: Ancient Brains in a High-Tech World ...**

In The Distracted Mind, Adam Gazzaley and Larry Rosen—a neuroscientist and a psychologist—explain why our brains aren't built for multitasking, and suggest better ways to live in a high-tech world without giving up our modern technology. The authors explain that our brains are limited in their ability to pay attention.

The Distracted Mind: Ancient Brains in a High-Tech World Most of us will freely admit that we are obsessed with our devices. We pride ourselves on our ability to multitask. We feel we can read work email, reply to texts, check Facebook, watch video clips, talk on the phone, send texts, and drive a car ... all at the same time.

### **The Distracted Mind: Ancient Brains in a High-Tech World ...**

Emotional regulation is central to another of tech's disruptive effects on our ancient brains: exacerbation of tribal tendencies. Our distant ancestors lived in small nomadic bands, the basic social unit for most of human history.

### **How Our Ancient Brains Are Coping in the Age of Digital ...**

Cognitive neuroscientist Adam Gazzaley and psychologist Larry Rosen make a convincing case for what you may have already been thinking: your brain is not well adjusted to our engaging—and distracting—modern world. But in *The Distracted Mind: Ancient Brains in a High-Tech World*, Gazzaley and Rosen aren't panicking—they're being pragmatic. In part I of their book, they explain how our evolved ability to set high-level goals naturally collides with our ability to control our attention ...
