The adult human brain weighs on average about 1.2-1.4 kg (2.6-3.1 lb) which is about 2% of the total body weight, with a volume of around 1260 cm³ in men and 1130 cm³ in women. There is substantial individual variation, [6] with the standard reference range for men being 1,180-1,620 g (2.60-3.57 lb) [7] and for women 1,030-1,400 g (2.27-3.09 lb).

Human brain - Wikipedia

Coating the surface of the cerebrum and the cerebellum is a vital layer of tissue the thickness of a stack of two or three dimes. It is called the cortex, from the Latin word for bark. Most of the actual information processing in the brain takes place in the cerebral cortex.
