WHO | World Health Organization

Health systems in countries all over the world are undergoing intensive reforms. Internationally, the existing institutions for multilateral cooperation are facing unprecedented challenges. Many are finding it increasingly difficult to fulfil their mandates. There is inefficient overlap of efforts among various multilateral organisations, while, paradoxically, there are voids of responsibility ...

The WHO has been handling the COVID-19 outbreak in a specific manner. It went from downplaying the virus and lobbying against travel bans from China to pushing for the constant lockdown of the world and its economy. There's a method behind the madness: The WHO is using the pandemic to move towards a New World Order that is modeled after China's oppressive regime.
